Precision to innovate.
Potential to internationalize.

Your gateway to innovation in Brazil

Who we are

UFRJ Science Park is one of Brazil's leading innovation ecosystems. Located on the University City campus, on the shores of Guanabara Bay (Rio de Janeiro/RJ), it is the innovation hub of the Federal University of Rio de Janeiro (UFRJ), the largest and highest-ranked federal university in the country.

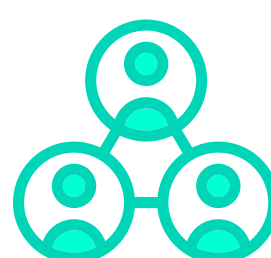

It hosts more than 50 organizations, R&D centers and deep techs, directly connected to the university and with access to hundreds of laboratories, researchers and students.

**DEEP TECH INNOVATION HUB IN
RIO DE JANEIRO**

**DIRECT CONNECTION WITH UFRJ (LABS, TALENT
AND APPLIED RESEARCH)**

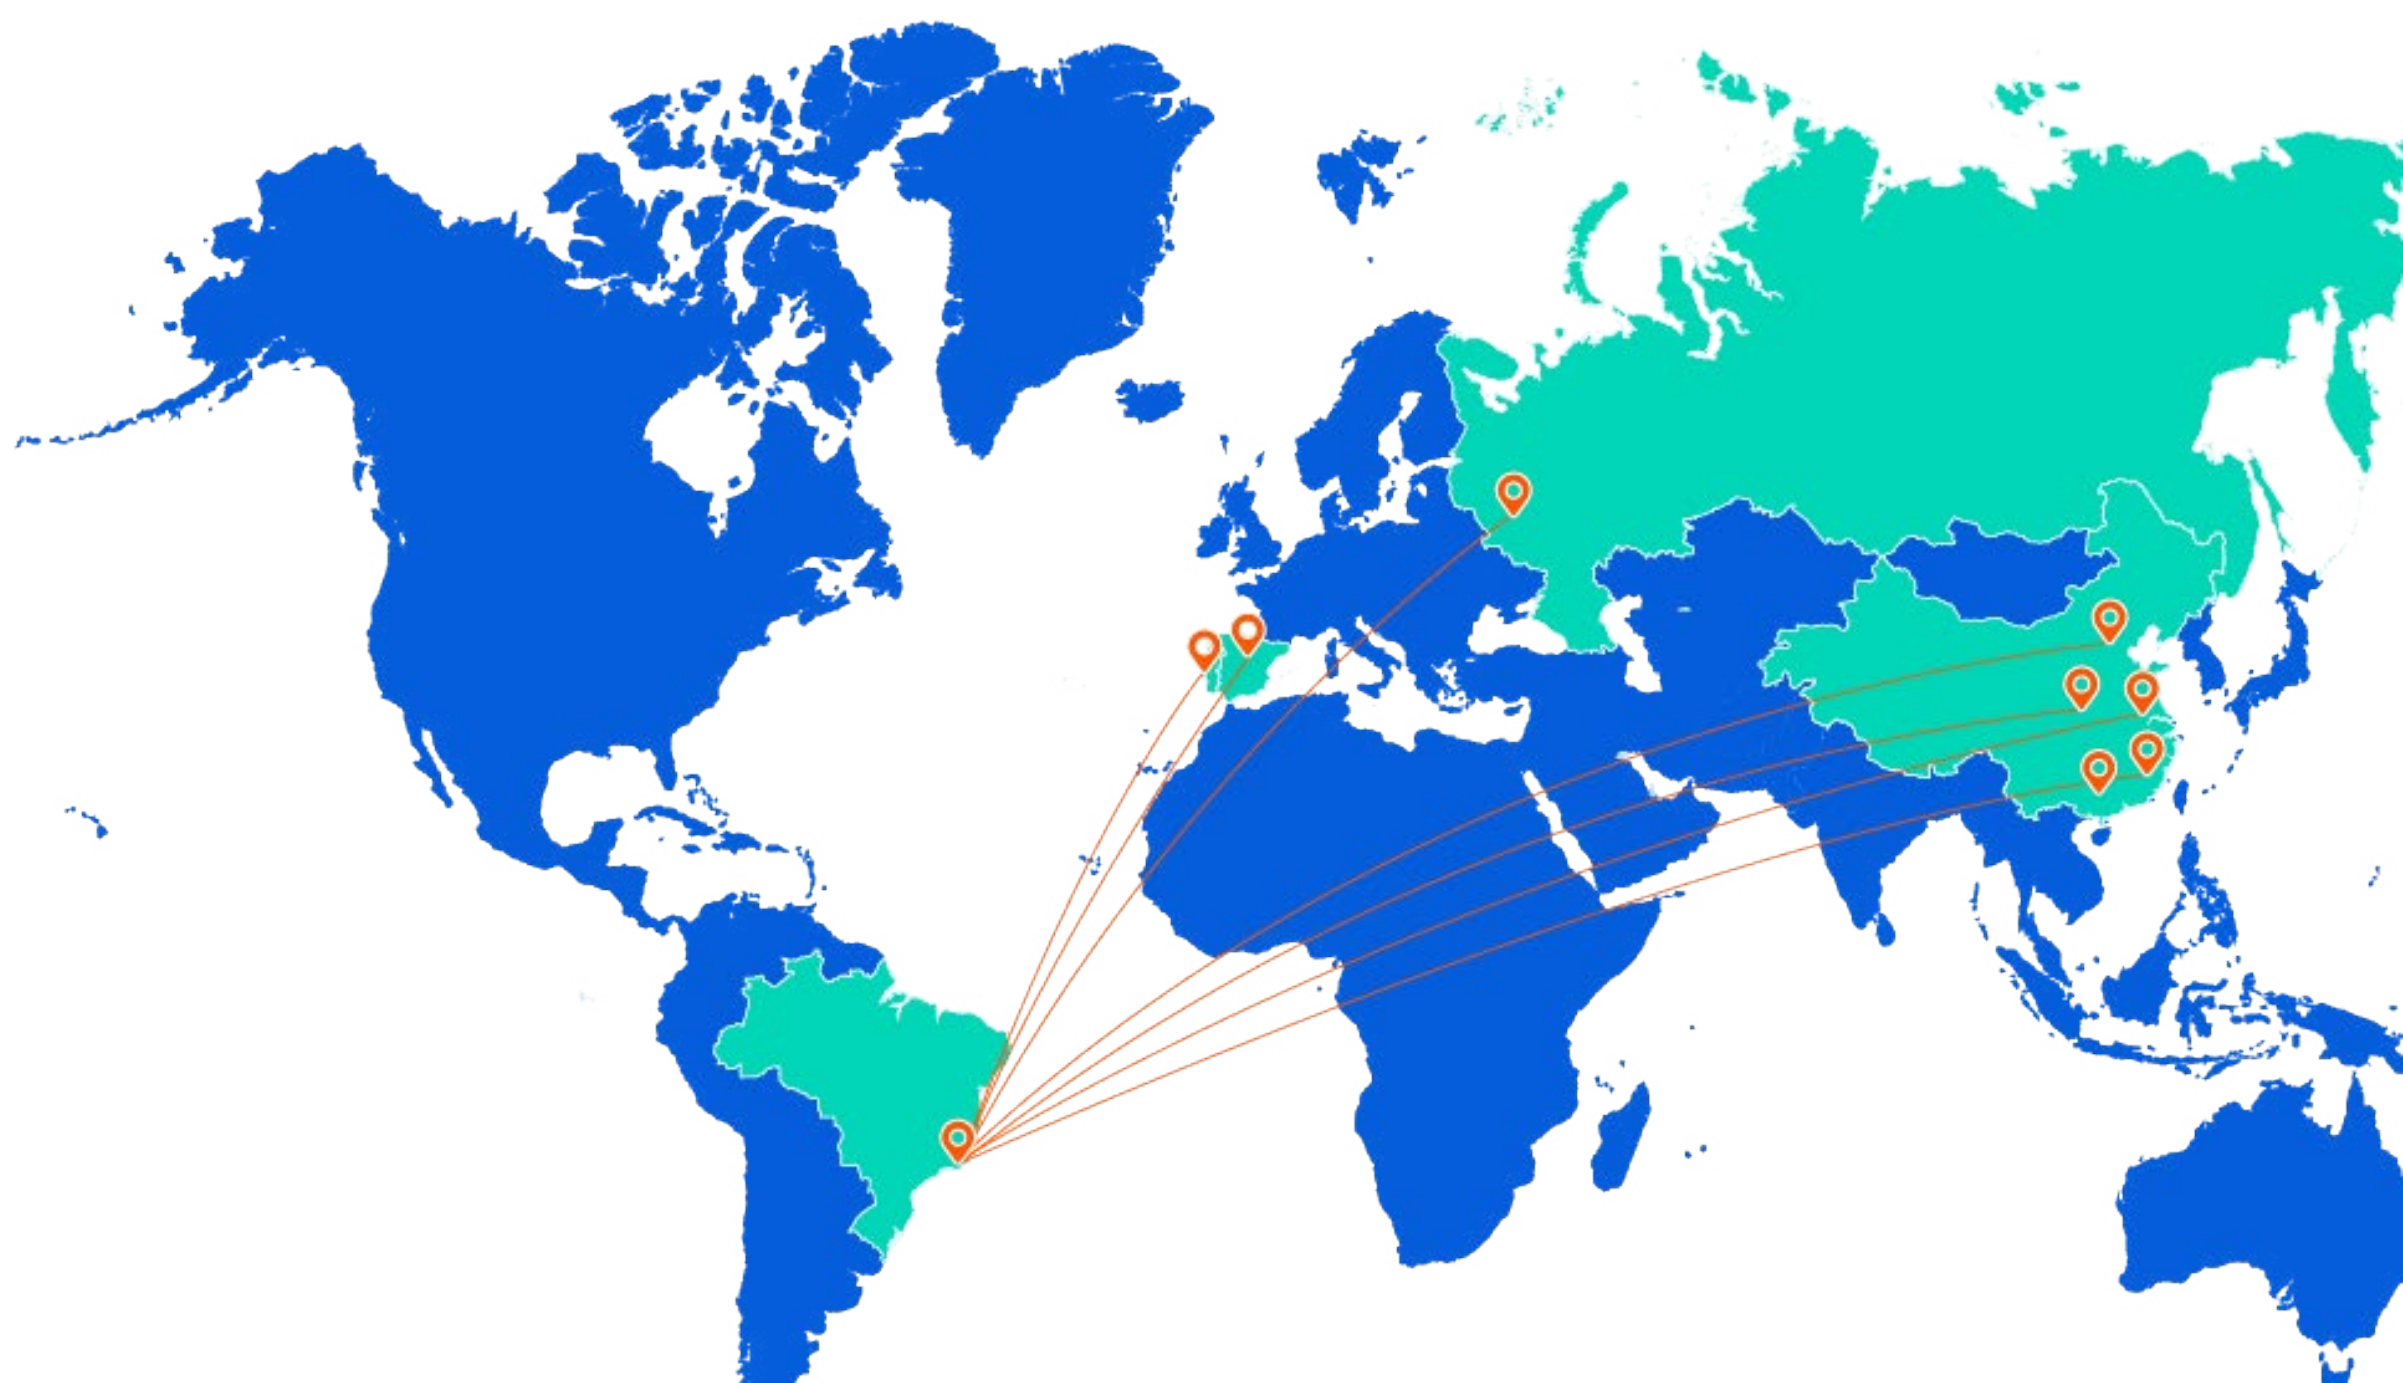

**CORPORATE, ACADEMIC AND GOVERNMENT
ACTORS IN THE SAME TERRITORY**

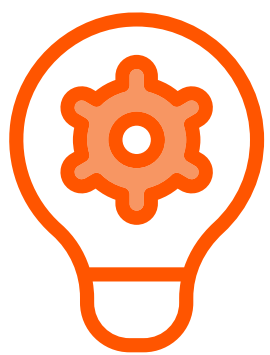

Parque Global: Internationalize to innovate

Parque Global is the internationalization strategy of UFRJ Science Park.

- * Attraction of international companies, deep techs and institutions into the ecosystem
- * Support for the global expansion of resident organizations, connecting them with partners and investors
- * Development of cooperation projects and agreements with science parks, universities and international stakeholders

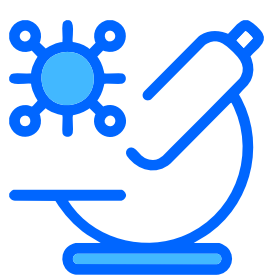

Why UFRJ Science Park?

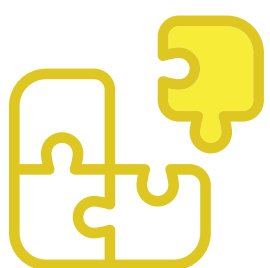

ACCESS TO BRAZIL'S INNOVATION MARKET

Your entry point to sectors such as energy, health, biotechnology, blue economy, creative industries, oil & gas and digital transformation.

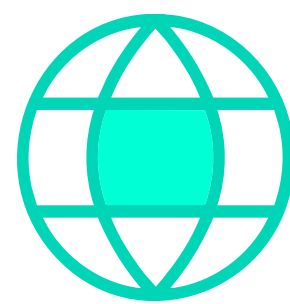

PARTNERSHIP WITH LEADING SCIENCE

Joint R&D development and access to highly qualified talent across multiple fields.

A ROBUST AND DIVERSE ECOSYSTEM

A community of large companies, startups, research centers, government and academia.

A TEAM DEDICATED TO INTERNATIONALIZATION

The International Relations Office serves as the focal point for foreign partners, simplifying all connections within the ecosystem.

STATE-OF-THE-ART INFRASTRUCTURE

350,000 m², more than 50 partner companies, shared buildings, green areas, café and restaurant, and structured access for buses, cars and pedestrians.

Innovate with us

- * Soft landing for organizations and deep techs exploring the Brazilian market, with connections to local partners.
- * Open innovation programs, technology challenges and bilateral collaborations.
